Commit

The screenshot shows the 'Commit changes' section of a GitHub repository. It features a blue-bordered box with a light blue background. Inside, there is a button labeled 'Add files via upload' and a text area labeled 'Add an optional extended description...'. The text area is currently empty and has a small cursor icon at the bottom right.

Add files via load: FileName_Version

Ex: FileNamingConventions_Version1

Add an optional extended description:

- Phrase avec ce que le fichier contient comme information
- Utiliser
- Informations sur ce qui a été rajouter/enlever
- Version et Nom

Ex:

Code contenant seulement le code de la base swerve de 2024

Utiliser pour la base du swerve

J'ai changer la vitesse du PID
